Physics of Life funding opportunities

Physics of Life have **OPEN** funding opportunities available to support research areas that promote communication and partnership between life and physical scientists through workshop, sandpit and pump priming support.

The Physics of Life network 2 grant end date is January 2020, applications must be made in good time before this date, preferably before October 2019.

For general enquiries relating to any of these opportunities, please email:
k.h.baker@dur.ac.uk

Got a workshop idea? *Physics of Life Workshop fund*

Key Details

- As a Physics of Life workshop organiser your involvement will be to focus on organising an academic meeting that promotes

We can help take care of:

- Budget and funding management
- Web page and registration

interdisciplinary research between the life and physical sciences.

- Up to £5k available for 2 day workshops.
- Workshops can be held at any UK location.

Physics of Life Workshop Fund

- Advertising
- Programme organisation
- Liaising with speakers to organise travel, accommodation
- Preparing conference material including conference booklets and name badges
- Venue liaison and catering

Give a collaboration a kick start *Physics of Life Sandpit fund*

Key Details:

- **What's a sandpit?** Sandpits are discussion forums designed to gather a small group of key researchers to support a new collaboration and grant application. **It is not necessary to have held a PoL workshop before applying for these funds.**
- £5k available for 2 day sandpits (funds can be spent on venue hire, catering, accommodation as well as funding travel for key European or international collaborators).
- Successful collaborations seeded from sandpits can receive a further £5-10k to pump prime proof of

We can help take care of:

- Budget and funding management
- Liaising with attendees to organise travel, accommodation
- Preparing sandpit materials
- Venue liaison and catering organisation
